

**Medical Research Council Therapeutic Trials Committee (1934)**. The serum treatment of lobar pneumonia. *BMJ* 1:241-245.

**Key passages**

The method consequently agreed upon for London, Edinburgh, and Aberdeen was that alternate cases of lobar pneumonia, taken simply in the order of their admission to hospital, should be used respectively for serum treatment and controls. So far as possible both were treated in the same wards and under the care of the same physicians.
