THE TREATMENT OF ACUTE INFECTIOUS HEPATITIS. CONTROLLED STUDIES OF THE EFFECTS OF DIET, REST, AND PHYSICAL RECONDITIONING ON THE ACUTE COURSE OF THE DISEASE AND ON THE INCIDENCE OF RELAPSES AND RESIDUAL ABNORMALITIES ¹

By THOMAS C. CHALMERS,² RICHARD D. ECKHARDT,³ WILLIAM E. REYNOLDS,⁴ JOAQUIN G. CIGARROA, JR.,⁵ NORMAN DEANE,⁶ ROBERT W. REIFENSTEIN,⁷ CLIFFORD W. SMITH,⁸ AND CHARLES S. DAVIDSON WITH THE TECHNICAL ASSISTANCE OF MARY A. MALONEY, MERME BONNEL, MARIAN NIIYA, ALICE STANG, AND ANN McD. O'BRIEN

(From the Thorndike Memorial Laboratory, Boston City Hospital, The Departments of Medicine and Preventive Medicine, Harvard Medical School, and from The Army Medical Service Graduate School, Walter Reed Army Medical Center, Washington, D. C.)

(Submitted for publication December 11, 1953; accepted February 16, 1955)

TABLE OF CONTENTS

<i>Part One: Introduction</i>		<i>Part Three: First Study: The Relative Effects of Diet and Rest</i>	
<i>Section</i>	<i>Page</i>	3.1	Design 1171
1.1	General Remarks 1164	3.2	Rest Regimens 1172
1.2	Preliminary Epidemiological and Clinical Observations 1165	3.3	Dietary Regimens 1173
1.3	Outline of Studies and Summary of Results 1166	3.4	Effectiveness of the Randomization 1175
<i>Part Two: Materials and Methods</i>		3.5	Elimination of Patients from the Study 1175
2.1	Selection of Patients and Allocation into Treatment Groups 1167	3.6	The Effects of Treatment on Duration of Illness 1176
2.2	Details of Patient Care 1167	3.7	Laboratory Relapses Before Return to Duty 1178
2.3	Dietary Procedures and Validation of Dietary Calculations 1167	3.8	Other Effects of Treatment on Laboratory Tests 1179
2.4	Methods for Collection of Data 1168	3.9	Effects of Treatment on Symptoms and Signs 1181
2.5	Normal Values of Liver Function Tests 1169	3.10	The Effects of Ambulation, The "Pack" Physical Fitness Test and Physical Reconditioning on Symptoms, Signs, and Liver Function Tests 1182
2.6	Criteria for Measurement of Treatment Effects 1170	3.11	Summary 1185
		<i>Part Four: Second Study: The Effects of Various Dietary Components</i>	
¹ This investigation was sponsored by the Commission on Liver Disease, Armed Forces Epidemiological Board, and was supported by a grant from the Office of The Surgeon General, United States Army, Washington, D. C.		4.1	Design 1185
² Present address: Lemuel Shattuck Hospital, Boston 30, Mass.		4.2	Rest Regimens 1186
³ Present address: Veterans Administration Hospital, Iowa City, Iowa.		4.3	Dietary Regimens 1186
⁴ Present address: University of Washington School of Medicine, Seattle, Washington.		4.4	Effectiveness of the Randomization 1187
⁵ Formerly 1st Lt., M.C., USAR; Present address: Laredo, Texas.		4.5	Elimination of Patients from the Study 1188
⁶ Formerly Captain, M.C., USAR; Present address: New York University Post Graduate Medical School, Bellevue Hospital, New York, N. Y.		4.6	The Effects of Treatment on Duration of Illness 1188
⁷ Formerly Captain, M.C., USAR; Present address: Syracuse, New York.		4.7	Laboratory Relapses Before Return to Duty 1191
⁸ Formerly Captain, M.C., USAR; Present address: Veterans Administration Hospital, Hines, Illinois.		4.8	Other Effects of Treatment on Laboratory Tests 1191
		4.9	Effects of Treatment on Symptoms and Signs 1194
		4.10	Summary 1194
